About This Content

Overview

Ori from *Ori and the Blind Forest* joins the *Rivals of Aether* roster! In a collaboration between Dan Fornace LLC, Microsoft Studios, and Moon Studios, Ori has been recreated in beautiful pixel art to compete against the other Rivals. The Ori Rival DLC comes with the tag team fighters Ori and Sein as well as The Spirit Tree stage.

Rival

Ori works to Bash, Stomp and Glide his way to victory, Sein can use the Spirit Flame or the Charged Flame to put enemies between a rock and a hard place.

- **SPIRIT FLAME** – Sein follows Ori around the battlefield. Ori can tap Neutral Special to have Sein quickly fire a Spirit Flame from wherever Sein is. Ori can hold Neutral Special to have Sein use the Charged Flame.
- **BASH** – Ori can use Down Special to Bash nearly anything in Rivals of Aether – from characters to projectiles to rocks and plants. Ori can also move around the stage by bashing the Light Grenade that is thrown by using Forward Special.
- **TAG TEAM** – When Ori and Sein are close enough, Ori can use Strong Attacks to initiate tag team combos. These Strong Attacks have more powerful properties as Sein assists Ori for a more devastating blow.

Stage

players will have to look out for Kuro as she dives toward the screen, striking those who have not taken cover under the platforms. Gumo, a fan favorite from Ori and the Blind Forest, also makes an appearance on the Aether version of the stage as he moves a platform around. Competitive players can play on the Basic version for a fair fight while enjoying some great music inspired by Ori and the Blind Forest.
