## About This Content

The White Noise 2 Accursed pack features 4 new flashlights for investigators and 4 idols for creatures:

### The LED Lantern

*Much less squeaky than an old lantern, but its surface feels quite cheap...*

A lighter variation of the camping lantern, in exchange for smaller Exploration.

### Minimalist Flashlight

*Designed in California, with portability in mind.*

A lightweight flashlight with limited range.

### Firefighter Flashlight

*It's battery is encased for increased protection, and the light source can be extended above the smoke!*

A balanced flashlight focusing on increased range.

---

## **Steampunk Torch**

*Fashionable, trendy and very sturdy, although not very practical...*

Powerful flashlight but with limited battery.

## **Gemini**

*This pair of symmetrical figures embody Order inside Chaos and are an universal object of worship*

Each Idol placed reduces Investigators' Speed by a small amount.

## **Prisoner**

*Mummified remains of a fool that dared to despise the Old Gods. Now he will suffer for all eternity*

**Each Idol placed increases investigators' interaction time by a noticeable amount.**

## **Construct**

*An unnatural device that channels dark power towards its creator*

**The Creature noticeably increases its power when close to this Idol.**

## **Pazuzu**

*Effigy of the King of the Wind Demons, bearer of storms and plague.*

**Each Idol placed increases the Creature's Instinct.**
